ABOUT THE FDP

Research is a key feature of academic and industrial world. It plays an important role in the growth of a nation. The nations which had invested in research have flourished well and provided higher standards of living to its citizens. Therefore, in order to carry out research in an effective way, the researchers must be well versed with research methodology and design of experiments. This FDP aims to provide a platform to acquaint, improve, update and plan to do research in the area of Engineering and technology. It broadly encompasses the entire research process from problem definition to report writing and publishing a research paper in the relevant field.

CONTENTS OF THE FDP

DAY: 1

1. What Is Research? Smart Research? Resources for Research Literature review & Collection
2. How to Device the Research Problems? Devising the problem “Assignment using laptops”
3. Discussion on the Scholars work
4. Technical paper outlook – IEEE Paper
5. Writing the journal paper Demo with content writing tool
6. paper writing practical and Review

DAY: 2

1. Introduction to MATLAB
2. Image processing using MATLAB
3. MATLAB for at least 3 applications (Face Detection, Segmentation & Enhancement.)
4. 3D Morphological surface review.
